

Basket Handling Elevator (BHE)

Vertical Lift

- **NESHAP Compliant Features**
Minimizes worker vapor exposure and reduces contact with the solvent.
- **Enhanced Solvent Containment**
Horizontal slide lid can be closed when parts are being processed for increased solvent containment.
- **Labor Cost Savings**
Reduces or eliminates operator processing time.
- **Processing Consistency**
Ensures parts are processed consistently to your specification.
- **20 Part Cleaning Recipes**
Touch-Screen PLC allows you to enter, save & easily select between 20 different part recipes.
- **Minimized Solvent Losses**
PLC controlled movement combined with sufficient time in the refrigerated flash-off zone while processing with the lid closed greatly reduces solvent losses compared to manual processing.
- **Automated Operation**
Reduces operator error and increases productivity.
- **Process Basket with Lid Closed**
Ensures solvent containment through entire cycle.
